VSO Ireland is an international development charity that works through volunteers. We believe that putting people at the heart of development is the only way to make a real difference in the world. VSO works with over 1000 local partner organisations in 33 of the world's poorest countries across Africa, Asia and the Pacific. Our volunteers usually go overseas for one or two years and work alongside local counterparts to share their skills and experience.

VSO volunteers contribute to programmes in education, health, secure livelihoods, participation and governance and secure livelihoods, sharing their skills and doing whatever needs to be done to break down the barriers that trap people in poverty. VSO Ireland volunteers also work on peace programmes, working with peace building partners to share skills, knowledge and experience.

Since 2007, VSO Ireland has sent over 200 Irish volunteers on overseas placements and last year alone Irish volunteers changed the lives of over 4 million people. We continue to recruit experienced volunteers from a wide range of backgrounds including teachers, medical professionals, business people and many others to contribute to our work overseas.
